

PRODUCT INFORMATION

Horse Chestnut Extract

*Nutritional Support for Healthy Venous, Capillary and Rectal Tissue Function**

*Helps Stabilize Normal Tissue Fluid**

Numerous studies have been performed on Horse Chestnut Seed Extract (HCSE). As found in different animal experiments, the principal ingredient in HCSE is the triterpene glycoside mixture known as escin, which has an anti-exudative and vascular-tightening effect.

Using placebo as reference, a significant reduction of transcapillary filtration has been demonstrated in pharmacological studies involving human subjects. Several clinical trials support the benefits of HCSE in promoting healthy venous function.

Supplement Facts

Serving Size: One (1) capsule

Each Capsule Contains:	% Daily Value
Horse Chestnut seed extract	300 mg †
Standardized to contain 20% Escin (60 mg)	

†Daily Value not Established.

Other Ingredients: Gelatin (Capsule) and Rice Flour.

For Professional Use

Specifically formulated nutritional product derived from ingredients quality controlled for consistent potency and safety. This product was manufactured in an NSF GMP Certified facility. Contains no sugar, starch, salt, artificial colors or flavors, and no corn, wheat, yeast, soy, milk, animal derivatives or gluten.

Recommended Dosage:

One capsule twice daily with food, or as directed by your health care professional.

60 Capsules
